OUR SOFTWARE

ListingsPlus is the #1 Listing Management Solution available for real estate agents.

This industry leading software gathers listing data, such as showings, open houses, events, inquiries and website visits. It then crunches the numbers and makes sure that homesellers are informed every step of the way.

Additionally, it helps keep the real estate agent organized and ensures every single item on their checklist is completed and shared with the you, the client.

YOUR ADVANTAGE

Having this technology to manage your listings helps you in the following ways:

Informed Sellers:

- Always know what the real estate agent is doing
- Have a better understanding the market forces affecting the sale
- Can see and analyze trends
- Make smart decisions based on statistics
- Are always in control

WORKING FOR YOU

Our clients are important to us, and that's why we invest in, and embrace new tools and technologies that help ensure we provide the highest level of service. Other agents may make communication promises - but only we can guarantee them!

OUR PROMISE

As our valuable client, we commit to working transparently and always ensuring that the details of everything we do to sell your home are available to you at all times.
